

The **Integrated** logistics group

DB Schenker is one of the world's leading providers of integrated logistics services.

We provide support to trade and industry in the global exchange of goods, in land operations, in worldwide air and ocean freight, and in all the associated logistics services. Over 88,000 employees at about 2,000 offices around the world achieve a turnover of some 18 billion Euros per year.

With 26 UK locations, including 6 land hubs and over 900 experienced, dedicated staff, DB Schenker is well positioned to offer a truly integrated logistics service, covering all modes of transport.

As a company specialising in land transport on road and rail within Europe, our closely woven network of regularly scheduled routes connects the principal economic regions in over thirty European countries. We are just as qualified in providing solutions for air and ocean freight and associated logistics services on a global scale. Our integrated logistics centers located at the hubs of the global flow of goods create an effective link between all carriers allowing us to offer a broad range of added-value services.

Our experts provide complete solutions tailor-made for the requirements of industry today and tomorrow. International teams of specialists integrate the Group's individual service modules to create complex added-value chains that ensure a reliable flow of materials and information.

Schenker provides its customers with all the main services from a single source, a business principle that has proved its worth ever since the company was founded by Gottfried Schenker in Vienna more than 135 years ago. DB Schenker combines all the transportation and logistics activities of Deutsche Bahn.
