

# DB SCHENKER Ocean Freight

**We are recognised leaders in ocean shipping. We uniquely combine local know-how and unrivalled personal customer service with global reach, global strength and global expertise.**

Ocean transport is a vital part of the world economy, and global relations need global standards. This is why Schenker has defined new products and services for global ocean freight.

DB SCHENKER **ocean** is the name of the new product family covering intermodal ocean transport from door to door in a time definite environment. High quality and efficiency is based on long-term contracted relationships with reliable carriers and are bundled with customised pre and on-carriage arrangements:

DB SCHENKER **complete** - for full-container-load shipments

DB SCHENKER **combine** - for less-than-container load shipments

DB SCHENKER **projects** - for logistically complex shipments, breakbulk and other activities needing extra care

Our range of DB SCHENKER **ocean** products and services offers the right system for all cargoes and requirements, with the backing of a truly global import and export organisation. DB Schenker has its own offices in every significant harbour and industrial region of the world enabling us to promptly react to our customers' requirements. We will work out the most suitable transportation arrangements and select the appropriate carriers for every shipment. Over one hundred years of experience in the field of ocean going transport mean we know both most appropriate as well as best-priced solutions.

# DB SCHENKER Ocean Freight

## Ocean Freight

Our service is by no means concluded once the shipment reaches its port of destination. DB Schenker has first-class, fully integrated connections everywhere, providing highly capable and adaptable transport management from door-to-door. It goes without saying, we provide all necessary associated services, from standard documentation to complex banking arrangements and marine insurance coverage.

### Benefits of using DB Schenker

We believe in developing close individual, working relationships with each shipping line. This enables us to cater to each customer's specific needs at all times. DB Schenker's principal objective is to transport our customer's cargo with efficiency and care. The benefits of using DB Schenker to provide ocean services include:

- One source global vendor
- Complete transport management services
- Global reach
- Direct services to most parts of the world
- Flexibility
- Reduced transshipments
- Reduced cost

With the combination of customer focused staff, combined buying power, reliable first class carriers and flexible sailing schedules, DB Schenker's ocean freight portfolio is second to none.
